Gap analysis template

Why does a gap analysis work so well? Because you in a visual way can see what your performance is today and you have the chance to describe the outcome or goal you seek. What does it take.

Use the gap tool to create the way forward for you.

First step

No.	How is it today	How is it, when it is like I want it to be	What can I do
No	What can I change	What do I need to accept	What can I do
No	How do I see it	How is it	What can I do

What is it like once I am there ?

Make it happen make the difference.

Be proud of who you are.

-YOU do did it -
