The power of

DECENT

The power of Decent

What does decent mean and why has decent become so important

What do you do, when you act decent

Why is decent hard to find these days

The power of Decent

What happens to you if you do not act decent:

You offend other people and you cross their private space.

Your behavior makes other people feel either bad about themselves or bad in your company.

Decent is a choice to let something be more important

The power of Decent

Decent can challenge you

It is better to be right than to get your way

It is better to call it a misunderstanding to keep the friendship

It is better to seek compromises than being along

The power of Decent

Decent opens all doors,

Decent does that you can go everywhere not only
somewhere.

Decent gives you the ability to be among everyone not
just someone

The power of Decent

Decent people knows that life challenges all of us. Not at the same time,

When you are up your friends will know who you are, when you are down you will know who your friends are.

Tell your story and share how you shaped your way.
