Coaching and Life by RPL

Use your hope, use your dreaming, day dreaming is your agenda to work for tomorrow

Start today – what one thing can you do right now for your dream to come true

Start writing and start doing

The power of tomorrow CAL Coaching and Life by RPL

Share your hope and wishes.

Start talking about them

When you write your wishes and dreams down, when you start talking and sharing them.

You form them and create them, they get a life.

The power of tomorrow CAL Coaching and Life by RPL

Telling your story and what you wish will help you form you tomorrow.

Letting things stay inside your head will be spinning and keep spinning

The future is tomorrow, dream and wish but start walking.

The power of tomorrow

I know you are scared, I know you have doubts

Face them and work with them – ask yourself questions

Meet them and talk to them – but keep walking

Learn from each step each doubt each question

The power of tomorrow

Take yourself by the hand and start living your dream

That is one step then next one step.. Keep walking

Make yourself see the light, tell everyone about the light you see..

It is worth it all, this is your story to TELL
